MEMBERSHIP BENEFITS

The European Capital Markets Institute (ECMI) conducts independent research on a broad range of issues related to capital markets with the aim of informing debate and policymaking.

Through its various activities, it facilitates interaction among market participants, policymakers and academics. ECMI is managed and staffed by the Centre for European Policy Studies (CEPS) in Brussels.

Through its [Commentaries and Policy Briefs](#), ECMI analyses the latest regulatory developments and puts forward proposals and recommendations to help shape the regulatory and policy debate. ECMI also produces in-depth [Research Reports](#) on key policy issues and market developments. Alongside its own research initiatives, ECMI responds to calls for proposals from external entities and welcomes contributions from experienced academics.

ECMI regularly organises workshops, seminars and [Task Forces](#) on a variety of issues facing European capital markets. Participation in [ECMI events](#) offers multiple networking opportunities. The ECMI Annual Conference is a unique event in Brussels, bringing together over 30 high-level speakers and more than 300 participants.

The annual edition of the [Statistical Package](#) is a comprehensive collection of the most relevant data on key segments of European and global capital markets, covering equity markets, debt securities, securitisation, covered bonds, exchange-traded and over-the-counter derivatives, asset management, mutual funds, insurance companies and pension funds.

ECMI STRUCTURE

GOVERNANCE

ECMI's open membership policy and the diversity of its membership base ensure its independence as a research institute. The Annual General Meeting is usually held in October or November before the Annual Conference. Board Meetings are organised twice each year, usually in February/March and June/July, respectively. The main agenda items are research (publications, projects and events), membership updates and the financial situation.
