

About the 1st Annual Symposium on Asia Relations in Financial Services

The inaugural edition of this Asia Financial Services Symposium series took place in June 2013 in Singapore. The theme of the event was 'Promoting Convergence and Investments in EU Asian Financial Markets'.

The event had received support from 120 selected participants representing various regulatory bodies and financial institutions from Europe and Asia. Among over 30 senior speakers we had European Commission, EU Delegation in Singapore, EU Delegation in China International Organization of Securities Commission (IOSCO), (Australian Securities and Investments Commission (ASIC), (Monetary Authority of Singapore (MAS) Hong Kong Monetary Authority (HKMA), Financial Supervisory Agency of Japan (FSA) Bank Indonesia, Financial Service Authority of Indonesia and the Department of Finance and many other leading financial organisations.

The symposium program ranged across several topics affecting EU-Asia relations in financial services, and focusing most importantly extraterritorial effects of financial instruments legislation, the evolution of the prudential regime (Basel 3 and beyond), current challenges faced by the Asian asset management industry, as well as the importance of global commodity markets and international trade.

We highly appreciated the support by the [redacted] and Thomson Reuters, as well as the Supporting Sponsors including BNP Paribas, PwC and Societe Generale.

We have received very positive feedback from the stakeholders including speaker delegates, sponsors and organisers. Most of them found the speakers relevant, the discussions highly informative and interactive. The Symposium thought provoking and enjoyable with the opportunity to meet various senior representatives with similar interests in financial regulation.
